

# NPP-WWSS SERIES STAINLESS STEEL WASTEWATER PUMP

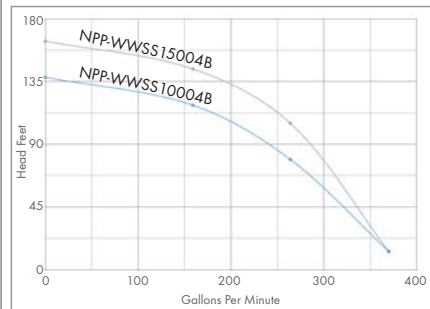

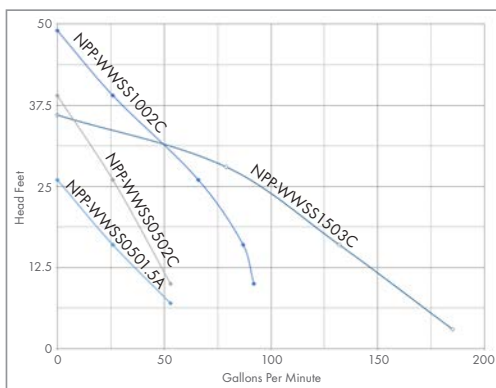

### APPLICATIONS:

Waste waste applications, all SS construction for use in chemical plants, metal industries, medical applications, animal farming, pulp and paper, as well as many other harsh chemical industrial applications

### FEATURES:

- All 304/316 Stainless Construction. Industrial standard for corrosive resistance
- Professionally engineered for maximum performance, efficiency, and chemical resistance
- Dynamically balanced impeller and pump shaft for maximum bearing life and pump efficiency
- Chemical and abrasive resistant SIC mechanical seal and fluorine elastomers
- Float switch option for 2hp and smaller units
- Chemical resistant cable base and cable
