
NP&P is a pioneer and the new leader in submersible pump manufacturing. Our People and OEM partners have over 30 years of combined product development, research, and manufacturing experience. Every single year we thrive to improve our products, our service, and expand our product lines.

NP&P alongside our OEM partners currently produce over 20 categories of the most dependable pumps on the worldwide market. Our continued growth, as always, is dependent on the needs of our customers. Our categories of pump lines will continue to expand as your needs do.

NP&P markets include the entire USA, Canada, Mexico, South & Central America, and portions of Europe. We are actively growing, actively expanding our lines, and seeking strong, aggressive, and knowledgeable distribution partners. If you would like to join our team, and represent **NP&P** products please contact us directly. We need you; and we can be a great partner in your business.

Marcus Daschner,
Owner & CEO
